Equality Act 2010 definition of disability

Under the Equality Act 2010, a person is considered to have a disability 'if they have a physical or mental impairment, and that impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities'. 'Substantial' is defined by the Act as 'more than minor or trivial'. An impairment is considered to have a long-term effect if:

- it has lasted for at least 12 months,
- it is likely to last for at least 12 months, or
- it is likely to last for the rest of the person's life.

Do you have a disability, long term health condition or neurodivergent condition?
